Concrete Epoxy Patch and Grout Repair Solution

Dc Dynamis , highly recognized for its impressive line of epoxy solutions and epoxy product/service quality, strikes again with its Epoxy Patch and Grout Repair for Concrete Wall and Floor.

Manufactured in Florida, EPO PATCH & GROUT® is user friendly and affordable. It is used for the general patching of holes and worn areas in concrete such as concrete patio area, industrial floors, cement walls and more...

Venice, FL, March 10, 2010 – Dc Dynamis innovates with its EPO PATCH & GROUT® CONCRETE REPAIR epoxy line. These epoxies are No Blush and can be applied underwater and even in water filled cracks and holes. The epoxy, compared to other cement patching products, hardened in few hours, bond extremely well and can be painted.

EPO PATCH & GROUT® is uniquely formulated to repair foundation and basement cracks, patch and resurface concrete floors and cement walls and can be used on marine products such as boats, kayaks, canoes due to its waterproof formulation. The epoxy based formulation is an easy way to permanently repair cracks in an affordable and easy way. This EPO PATCH & GROUT® line quality respond to the needs of industrial companies. It is a highly chemical resistant epoxy that has been proven to be durable in the tough environment.

The EPO PATCH & GROUT® is a multi-purpose construction epoxy used to make permanent crack repairs replacing temporary rubber and asphalt materials presently being used. "This epoxy line is unique on the market and is highly used to repair cracks on garage floors, patios or in-ground pools, as well as it is highly used by chemical industry for its high protecting capacity and its chemical resistance" says John Caramanian, President of DcDynamis.

- more -

The epoxy, adhesive and coating line includes many products that are easy to apply, chemical resistant, sagging free, and weather resistant. Dc Dynamis product line is continually expanding. DcDynamis also offer custom formulation if products are not currently available. Many colors and pot life are available to fit any needs.

For additional information on Dynamis new line of epoxies, contact Eric DeGrave / Nadia Vizza or visit www.dcdynamis.com.
